**CARGILL, INC.'S SECOND SUPPLEMENTAL ANSWER
TO INTERROGATORY NO. 1
OF PLAINTIFFS FIRST SET OF INTERROGATORIES**

SECOND SUPPLEMENTAL ANSWER

INTERROGATORY NO. 1: For each of your poultry growing operations in the IRW since 1952, please provide the following information:

- a. name and physical location of the operation;
- b. dates of operation;

c. type of operation (breeder, broiler, layer, etc.);

JAN 3 2008

RICHARD ABNEY,
NEAL TURPEN,
ORBISON & LEWIS, P.C.

EXHIBIT

21

- d. number of birds (aggregated annually) at each location; and
- e. name of the owner and operator.

ANSWER: Cargill, Inc. objects to this interrogatory as overbroad, burdensome and not reasonably calculated to lead to the discovery of admissible evidence to the extent that it: seeks information outside the time period 2002 to 2004 (when Cargill ceased poultry production operations); seeks information for an unspecified future time period that has no end or limit; would require "supplementation" in a manner inconsistent with the meaning and intent of Fed.R.Civ.P. 26(e); seeks production of information from individuals or entities other than Cargill, Inc., the named Defendant in this action; and seeks to define the IRW as including groundwater and/or indirect runoff. Moreover, Cargill, Inc. objects specifically to subsection (d) of this interrogatory as vague and ambiguous and to the extent that it seeks confidential and proprietary trade secret or business information without entry of an appropriate confidentiality and protective order.

Subject to and without waiving these objections, Cargill, Inc.'s answers to Interrogatory No. 1 subsections (a), (b), (c) and (e) are produced herewith in the document bates numbered CAR000001-2.

With regard to Interrogatory No. 1 subsection (d), Cargill, Inc. states that, during the time it was engaged in poultry production, it did not track on an aggregated annual basis the number of "birds" at any particular farming location in any particular year. To the extent that Plaintiff seeks the number of turkey poult placed by Cargill, Inc. at each growing location identified in subsection (a) above in any given year, this information may be as easily derived by Plaintiff as by Cargill, Inc. from Cargill, Inc.'s Actual Poult Placement Reports and Breeder Poult Placement Reports. Pursuant to Fed.R.Civ.P. 33(d), Cargill, Inc.

will produce upon entry of a mutually agreeable confidentiality and protective order all such Reports for its former growers in the IRW from 2002 to 2004.

FIRST SUPPLEMENTAL ANSWER:

Without waiving its prior objections, but hereby incorporating each of them by reference as if fully set forth herein, and subject thereto, Cargill Turkey supplements its previous answer as follows:

With regard to Interrogatory No. 1 subsections (a), (b), (c) and (e), produced herewith in the document bates numbered CARTP129664-CARTP129665, Cargill, Inc. provides supplemental information regarding all contract growers and breeder farms in the IRW that it has been able to identify as of the date of this response. Discovery is continuing, and Cargill, Inc. will supplement this answer should it identify any additional growers in the IRW.

With regard to Interrogatory No. 1 subsection (d), although Cargill, Inc. did not track by location aggregated annual bird totals during the time that it was engaged in poultry operations in the IRW, Cargill, Inc. provides herewith the information that is reasonably accessible from the TFS and Breeder databases of Cargill Turkey Production, LLC relative to annual "bird" counts at its former breeder farms or the farms of its former contract growers. These reports are produced as documents bates numbered CARTP123574-CARTP123733. Because of various factors that are not always reported in these systems, Cargill, Inc. makes no representation regarding the accuracy of the "bird" totals reflected on these reports at any particular location in any given year. Cargill, Inc. specifically reserves its right to object to the use or admissibility of this information at trial.

SECOND SUPPLEMENTAL ANSWER:

Pursuant to the Court's Order dated December 7, 2007 and without waiving any objections not substantively overruled by said Order, Cargill, Inc. supplements its previous answer as follows:

With regard to Interrogatory No. 1 subsections (a), (b), (c) and (e), produced herewith in the document bates numbered CARTP177359-CARTP177360, Cargill, Inc. provides updated information regarding all contract growers and breeder farms in the IRW that it has been able to identify as of the date of this response. This version differs from a similar document identified in the First Supplemental Answer because Cargill Turkey has determined that Turner Farms, operated by John Turner, is not in the IRW. While Mr. Turner's residence is located in the IRW, the physical location of Turner Farms and all turkey growing operations is not within the IRW.

With regard to Interrogatory No. 1 subsection (d), produced herewith in the document bates numbered CARTP177361-CARTP177362, Cargill, Inc. provides a chart that constitutes its best estimate of the number of birds from each operation, aggregated annually, that were processed at its Springdale facility. To the extent possible, numerical data from Cargill's TFS and Breeder databases was used to determine the number of heads of turkeys capitalized in a given year per grower. These TFS and Breeder reports have been produced to the State as documents based numbered CARTP123574-CARTP123733. However, certain data gaps may exist in this information due to the practice of Cargill Turkey to purge data from these systems on an as needed basis when demanded by storage capacity of the systems. To fill these data gaps, two procedures were employed. First, where possible, an average was taken for years in which there was adequate data from a particular grower and

this information was applied to the years for which there were data gaps. When this procedure was not possible, Tim Alsup (Precision Agriculture Manager) and Brian Delozier (Flock Supervisor) estimated the number of heads of turkeys per grower based on their experience. While this chart represents Cargill Turkey's best estimate, much of this data are averages or estimates based upon limited data and should be interpreted accordingly. The validity and usefulness of these numbers is also dependent upon the purposes for which this data will be used. Accordingly, Cargill Inc. specifically reserves its right to object to the use or admissibility of this information at trial.
